

LEAN THINKING. GET SERIOUS!

Description.

Activate Lean Thinking in your business.

By the end of this workshop you will be able to use core Lean tools and techniques to activate a planned solution to a difficult problem.

You will need to bring.

As much information as you can about a difficult problem that exists within your business. You will apply Lean tools, find a root cause/s and build a plan to improve it!

Who should attend.

Owners, managers, leaders, supervisors and key staff who have a problem that requires a robust solution.

Duration: 1 Day

Cost: \$650 per person. Excl. GST.

 This programme is eligible for 50% RBP Funding.

A SERIOUS introduction to Lean Thinking.

What is Lean Thinking?

What is Customer Value?

What is Flow?

What are the 8 Wastes?

Apply Focused Improvement.

- Define your problem.
- Apply RCA (Root Cause Analysis) to your problem.
- Identify Root Cause/s
- Prepare a PDCA (Plan Do Check Act) improvement plan.
- Define success measures.
- Prepare to introduce your PDCA to your team.

Post Workshop.

Implement your plan...
